3. Integration Effects with Sumitomo Mitsui Construction

Construction

Early recovery of Sumitomo Mitsui Construction's building construction business

Strengthening competitiveness by leveraging scale advantages and the engineering capabilities of both companies

De-construction

Expansion of de-construction business in Japan

Deployment to overseas businesses

Corporate

Improvement of financial balance

Enhancement of management efficiency through integrated operation of assets such as business locations

4. Regarding the Shareholder Return Policy

- Based on the shareholder return policy set forth in the Medium-term Management Plan "INFRONEER Medium-term Vision 2027," we will maintain a dividend payout ratio of 40% or higher minimum dividend 60 yen.
- Reflecting the increase in net income for the current fiscal year due to the integration of Sumitomo Mitsui Construction and other factors, we plan to increase the annual dividend by **18 yen** from the initial forecast (initial annual dividend of 60 yen), resulting in an annual dividend of **78 yen** for the current fiscal year (an interim dividend of 30 yen and a year-end dividend of 48 yen).

The above pertains to the dividends related to common shares. There is no change regarding dividends for the Bond-Type Class Shares.
